EXPERIENCE:

Optum – UnitedHealth Group

Technology Development Intern

Jun 2017- Aug 2017

- Talked to clients to gather business requirements, created mockups and then developed SharePoint webpages for clients leveraging mainly HTML, CSS, jQuery, SPServices, REST calls and JavaScript.
- Created a SharePoint form leveraging custom JavaScript and jQuery client side validation along with a Nintex Workflow to streamline the process of hiring managers putting in requests for interns and full time associates for the next year.
 - The form is estimated to save at least 350 hours of manager and higher position pay annually (estimated savings at least \$13,000 annually at just the Schaumburg, IL location).
 - Will be piloted at the Schaumburg, IL location Fall 2017 and will spread to other Optum locations based on success.

Wofford College, Spartanburg, SC

Student Web Developer

Jan 2017 – Present

- Build, modify and debug 10 webpages and forms in the .NET framework using CSS/HTML, jQuery, JavaScript and Bootstrap
- Develop, document and test code collaboratively with 4-5 other student workers and 3 full-time staff with SourceTree.
- Use Ektron, a Content Management System, to make content updates on various Wofford websites and forms.

Wofford College, Spartanburg, SC

Help Center Assistant Technician

April 2016 – Jan 2017

- Set up equipment for Wofford students/employees (1900 people) use and provided a walkthrough on how to use it
- Managed, distributed and installed around 50 Adobe software licenses for Wofford employees
- Took inventory of 300-400 pieces of technology in our storage room and frequently tested technology for quality assurance
